PNEUMATIC TOOLS PUMPS HOISTS

PNEUMATIC TOOLS

A complete line covering every requirement, superior in design and construction, economical of power and repairs, unequaled in capacity—"Crown" and "Imperial" hammers for chipping, riveting and calking—"Imperial" piston and "Haeseler" rotary drills for drilling, reaming, beading and wood-boring.

THE "RETURN-AIR" PUMPING SYSTEM

The most economical method of pumping by compressed air—Maintains its high economy indefinitely—Automatic in operation, easily installed, adapted to any lift or capacity.—Pumps any fluid without injury—clear, muddy, gritty or acid water, acids, solutions, sand and marl.—Catalog R12.

DISPLACEMENT PUMPS

A pneumatic device of good economy for moving large volumes of water or other fluid over moderate lifts.

AIR LIFTS

A system of raising water from deep driven wells by compressed air—Will lift more water from a driven well than any other method—Catalog 73.

"IMPERIAL" MOTOR HOISTS

A dust-proof, splash-oiling, wholly-enclosed type running at highest efficiency, with maximum power and reliability—Built in five sizes, with capacities of from ½ to 5 tons—Bulletin 2008.

The Grant Overhead Pulley

Grant Pulleys for Twin Windows.

The overhead pulley obviates the use of lead weights as it gives more pocket room. These pulleys can be used in single, mullion, triplet and quadruple windows.

The Turner Patent Anti-Friction Drawer Slides and Supports

They are the only drawer slides on the market that are absolutely noiseless. A drawer fitted with the Turner Attachment cannot fall from the case when pulled out suddenly.

NO. 114 REFRIGERATOR SUITABLE FOR HOTEL OR RESTAURANT

McCray Refrigerators

(SEE PRECEEDING PAGE)

The McCray Refrigerator meets with the full approval of leading grocers, butchers, hotel men, in fact prominent people in every vocation of life where a refrigerator may be used.

McCray Refrigerators always have been sold on their merits. They are as good to-day as they were yesterday—in some respects better. They will be better to-morrow if we can make them so.

McCray Refrigerators are used by such hotels as the Royal Alexandra, Winnipeg, Man.; Hotel Gramatan, Bronxville, N.Y.; Hotel del Coronado, Coronada Beach, Cal.; Bretton Hall, New York City; Hotel Titchfield, Port Antonio, Jamaica, and many others; also by the U. S. Government using McCray refrigerators on battleships, in hospitals, barracks and forts. McCray Refrigerators are used in the Kitchen and Dining Rooms of the World Famous Plant, The General Electric Works, Schenectady, N. Y.

McCray Refrigerators are used by such Institutions as the University of Michigan Hospital, Jefferson Medical College Hospital of Philadelphia, Gouverneur Hospital of New York, Manhattan State Hospital of New York, and many others.

McCray Refrigerators speak for themselves. Opal Glass, Tile or White Wood Lined. Superior in Construction and Insulation. Unequalled for Economy of Ice.

Hospitals require a system of refrigeration that is as near perfect as it is possible to obtain; clean, perfect circulation of pure cold air and absolutely dry are characteristics of the McCray Patent System.

The McCray Refrigerators are made in all sizes from the smallest refrigerator to the largest cold storage, and for any purpose required. A complete line of stock sizes, also we make a specialty of manufacturing Refrigerators and Coolers for pipe and brine systems, that is "Machine Process of Refrigeration."

Catalogues and Estimates Free. Catalogues No. 46, for Hospitals, Hotels, etc.; No. 81, for Residences; No. 57, for Meat Markets; No. 64, for Grocers; No. 70, for Florists.

NO. 315. REFRIGERATOR FOR MEAT MARKET.

McCray Refrigerator Company,

Branch Offices in many Principal Cities.

The Secret of Success of the McCRAY REFRIGERATOR

No. 480. OPAL GLASS LINED

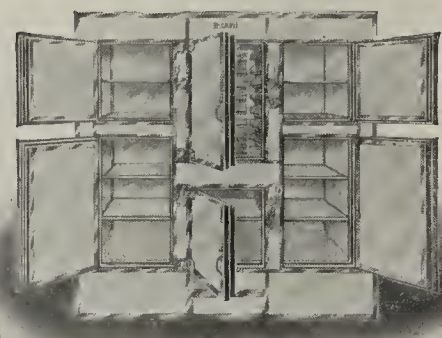

is REAL MERIT.

It is TRUE MERIT of the McCray Refrigerator that places on our list of customers names of many Physicians, Lawyers, Mechanics, Merchants and Professional men who are using McCRAY REFRIGERATORS in their homes and places of business.

It is TRUE MERIT of the McCray System that has placed fine Opal Glass Lined McCray Refrigerators on board several of the finest Battleships and Crusiers of our Navy, like the Virginia, Maryland, St. Louis, Charleston, Nebraska and Montgomery.

It is TRUE MERIT of the McCray System and construction that gave us the contract covering all refrigerator work in the Jefferson Medical College Hospital, at Philadelphia, amounting to many thousands of dollars, the entire job, comprising 17 refrigerators, being strictly high grade and of the most sanitary nature; all these refrigerators being lined with white glazed tile, and the exterior also covered with tile; the largest of these refrigerators is a five room cold storage, 37 feet by 12 feet and 8 feet high.

It is TRUE MERIT of the McCray System that enables us to refer to a great number of jobs of a similar character to the above, and likewise we have furnished thousands of Hotels, Restaurants and Clubs throughout the United States with McCray Refrigerators.

No. 478. OPAL GLASS LINED AND OPAL GLASS EXTERIOR.

BUILT TO ORDER FOR

MR. W. W. CHENEY, CHICAGO

McCRAY REFRIGERATORS

are endorsed by architects and sanitary experts as the BEST refrigerators that can be built—and they are the cheapest in the end, because they use so much less ice than other refrigerators, and soon pay for themselves in saving on ice bills.

It is to your interest to buy a refrigerator that is substantially built and will outlast other makes—a refrigerator that is well insulated and equipped with the proper system to be economical in the use of ice.

The Name—McCRAY

is an absolute guarantee of perfection in refrigeration. For a quarter of a century it has stood alone at the top among manufacturers of refrigerators. Each year has made its position more secure. This pre-eminence is no accident. No article can be a success, even though much money be spent for advertising, unless it possesses true merit. The great success of the McCray refrigerator is proportionate with its extraordinary merit.

YOUR reputation depends on your slate as well as your work. Perfect work on YOUR part will not satisfy your customer if bad slate causes his roof to give continual trouble and expense. He blames YOU—not the man who sold you the slate—it hurts YOUR reputation, and it costs YOU trade and loss of profit. YOU can protect yourself by ordering from

The
"Invisible Joint"
 Booklet
 on
 Metal Ceilings

We have recently issued a beautiful booklet, which, in a very descriptive manner tells all about

"Invisible Joint"
 TRADE MARK

METAL CEILING AND WALL FINISH.

It tells how this material is made and why it is superior to all other coverings. It tells about ceilings from the time of the early Egyptians up to the present day, and contains important information for the Architect, Contractor.

Dealer and Prospective Builder.

Send for this booklet—mention this paper and your line of business.

OSGOOD SCALE COMPANY. U.S. PATENTS

STANDARD

SUCCESSORS TO
BINGHAMTON SCALE WORKS
ESTABLISHED 1865

Binghamton, N.Y. July 1st, 1907.

Gentlemen,

Every factory, industrial plant, public or private institution should be equipped with the latest and best labor and time saving weighing machines and scales.

Public carriers Demand correct weights and are being forced to give the consumer 16 oz. to the pound.

We have many absolutely new ideas in scale construction.

If you are thinking of equipping your plant with scales of any kind or remodel your weighing apparatus it will pay you to write us for our catalog No. 50.

We call special attention to the following -

Railroad Track, Wagon of all kinds,
Industrial, Mining, Tipple, Dormant, Warehouse,
Hopper, Tank, Boiler room, Oil, Metal, Furnace
Stock Charging, Abattoir, Overhead, Tramway,
Suspended, Crane, Portable platform of all kinds,
Rolling mills, and Counter scales of all kinds.

In writing give us as full information as possible of your needs.

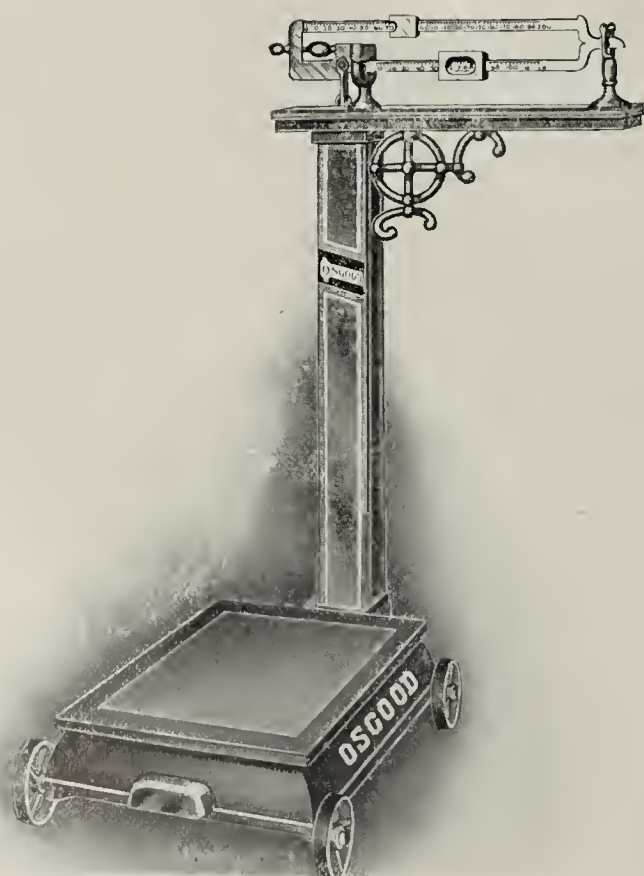

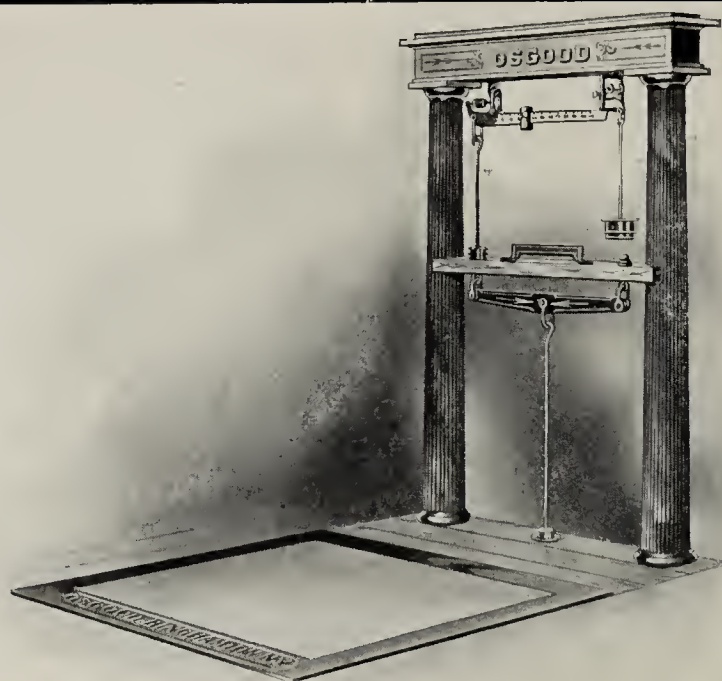

Sincerely yours,

OSGOOD SCALE COMPANY.

Cabot's Shingle Stains

The Original and Standard, and the Only Creosote (Wood Preserving) Stains.

They give clear, deep tones, and soft, fresh color effects that can be had in no other Stains; because the best pigments and the most careful and skilful preparation are necessary to produce them. No muddy effects, no blackening, no lifeless colors. Durability guaranteed.

"Wood treated with Creosote is not subject to dry-rot or other decay."—*Century Dictionary.*

Shepley, Rutan & Coolidge, Architects, Boston.

Cabot's Sheathing and Deadening "Quilt"

The most perfect non-conductor of heat and sound. Light, unflammable, decay and vermin proof. An elastic cushion of dead-air cells.

Cabot's Brick Preservative

A complete and permanent waterproofing for brick work.

Conservo Wood Preservative

A cheap and efficient preservative for all exposed lumber.

Soft, rich color effects are produced on Shingles by the use of Shingletint.

There are many brands of Shingle Stains in the market, but only one Shingletint, which means much to the consumer, who may call for it by name and know he is getting the best Shingle Stain made.

Shingletint is a scientific combination of linseed oil, coloring matter, creosote and the necessary drying agents; its use not only beautifies but prolongs the life of the shingles.

SEND FOR ONE

Pigeon-Fraser Hollow Spar Co.

Use no other make—Our spars are by far the best.

WHY?

Because we have made nothing but spars since 1830.

Because we were the Original Builders of Hollow Spars.

Because our Hollow Spar Cement has no Equal.

Because almost every designer in this and Foreign Countries uses and recommends our Hollow Spars.

Polished Bronze Fittings and Oak Mast Hoops are the very best in the Market.

OUR SPECIALTIES OF

Hollow Sculls and Hollow Sweeps are Winners. Such Men as Greer and Ten Eyke recommend and use our Sweeps and Sculls.

MASON SAFETY TREAD

THE ORIGINAL AND ONLY PERFECT SAFETY TREAD

**ABSOLUTELY RELIABLE. NON-SLIPPING
SURE TO THE FOOT. MOST DURABLE**

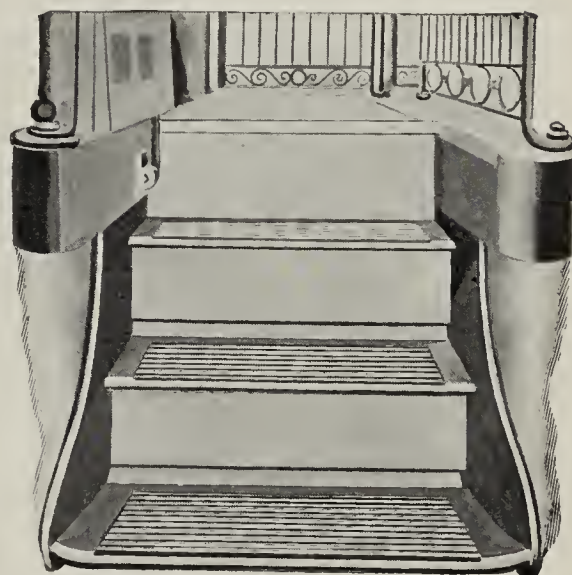

Perspective view of a six-inch section. Dark lines show the V or U grooves. Dark ends are lead rolled into dovetail grooves.

MASON SAFETY TREAD is made of steel or delta metal unperforated base of substantial thickness, with dovetailed grooves filled with lead, carborundum or karbolith. Open V or U grooves occupy alternate spaces, hence the filling and the continuous supports wear evenly; there is no filling up of open grooves with creeping lead, no retention of filth, and all dirt which gathers can be easily swept out. It is as easily applied as rubber and is many times as durable. It is unaffected by moisture or frost. All material is punched and countersunk for screws, and cut to dimension, at our factories.

Iron Stairs with Mason Safety Tread.

Mason Safety Tread on Pullman Car Steps.

Used by Federal, State and Municipal Governments; Specified by Architects, for business buildings, school-houses, department and other stores, churches, railroad cars, hotels, mills, factories, etc. It is used on wood, iron, slate, marble and granite stairs; inset in granolithic and other sidewalks and in vault lights. Blue print, samples and any information required, will be furnished on request.

THE PICTURES shown above need no commentary, they tell their own story clearly. The two illustrations in the upper left and right hand corners show "WHAT WE DO" in Architectural and Structural Iron Work and in Steel Skeleton Buildings for mining and manufacturing purposes. The two lower left and right hand illustrations show the well known Twin City Corliss Engine and the Munzel Gas Engine and Suction Gas Producer. The central illustration gives a good idea of our plant which covers 18 acres of ground.

We issue illustrated catalogues describing our manufacturing products that we will be pleased to mail YOU.

TANKS and TOWERS for Fire Protection

OUTFITS for Independent Systems and also in connection with Automatic Sprinklers.

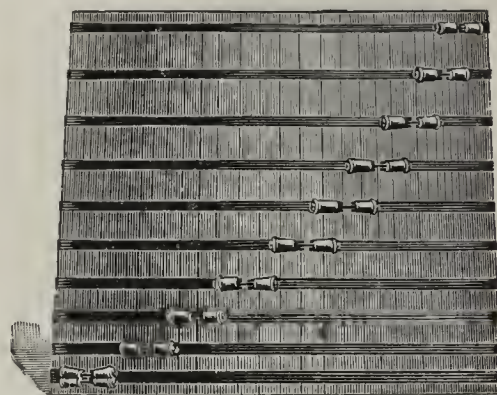

THE ASSOCIATED FACTORY MUTUAL COMPANIES endorse and recommend our work, as do hundreds of customers.

25 YEARS' EXPERIENCE qualifies us to know what good work is and how to build it. And we furnish no other kind.

WE ERECT these Outfits where desired. But any good mechanic can do so from our working drawings.

OUR TOWERS are of such weight and strength that they will withstand a cyclone. We build them of both Wood and Steel.

STUFF CHESTS, STORAGE TANKS, ETC., of lasting Louisiana Red Cypress. ACID TANKS of Yellow Pine or Cypress a Specialty.

Send for Illustrated Catalogue, Testimonials, Plans and Estimates.

THE KEWANEE SYSTEM OF WATER SUPPLY

FOR SUPPLYING WATER TO PUBLIC BUILDINGS, ASYLUMS, POOR FARMS, FACTORY BUILDINGS, FARMS, COUNTRY RESIDENCES, ETC.

A KEWANEE PNEUMATIC TANK

buried in the ground or placed in the cellar delivers water to the plumbing fixtures by air pressure. Gives a regular city water supply. No unsightly elevated tank to leak, freeze or blow over. Plenty of fresh, pure water during all seasons. Splendid fire protection.

No Freezing.

No Leaking.

No Repairs.

A Perfect Water Supply.

Absolute Fire Protection.

Practically Indestructible.

Are made in all sizes to supply various requirements. Kewanee Water Supply Systems are *complete*. Not a tank alone, which is not sufficient without power, nor the pumping power alone—which is useless without a storage tank, but we supply the complete plant.

We also furnish complete plants for filtering and aerating water, specialties for air pressure works, and pumping machinery of all kinds. Illustrated catalog No. 24 furnished free on request.

When You See "26 Gauge"

stenciled on a bundle of

PITTSBURGH

APOLLO BEST BLOOM

GALVANIZED SHEETS

you know from experience that 26 gauge it is. The same applies to all other gauges, and this one point alone is sufficient reason for you to demand them, for such uniformity assures quick, easy and satisfactory work, and removes all risk of damage to your machines.

When you add to this the toughness, pliability and easy working qualities of the materials used; the superior coating; and the ability of Apollo Sheets to withstand the elements indefinitely—no metal worker or property owner can afford to overlook them.

We'll gladly send you our Weight Card if you desire further information on the subject—and would suggest that you say "Apollo" and stick to it when in the market for Galvanized Sheets. You'll never regret taking such a course and you may if you don't.

ANDERSON HIGH GRADE**CEMENT TOOLS****ARE PROPERLY DESIGNED.**

The finishing tools are made of cast brass, including the
handles. The working surfaces are highly polished.

Work can be done cheaper, better and quicker with
Anderson tools than with poor tools. They give satisfaction
to the customer and dealer.

Our catalog, showing more than one hundred cement tools
and appliances for contractors, including the ANDERSON
CONCRETE MIXER, will be sent on application.

Technically Correct IN EVERY DETAIL

THE Oliver Typewriter is the highest embodiment of mechanical excellence in a Visible Writing Machine. It is so *minutely perfect* that it will write on a postage stamp—so *comprehensive* in its scope that it adapts itself to every writing requirement of the business world.

In the vital essentials of Visibility, Accuracy, Speed, Legibility, Perfect Alignment, Powerful Manifolding, Durability and Ease of Operation,

The
OLIVER
 Typewriter

The Standard Visible Writer stands first. We can give profitable employment to several young men as Local Agents for the Oliver. If open for engagement, get in touch with this office at once.

IS YOUR BUILDING EQUIPPED WITH A Mechanical Cleaning System?

Vacuum and Compressed Air Cleaning Systems are in use all over the World.

It is no longer an experiment, but a necessity.

There was a time — not so long since either, when people were contented with tallow candles. Plumbing was unknown, in the modern sense, and ventilation was the cause of very little worry. Now these questions receive almost as much consideration as the building itself.

The one most expensive and important item of building management is cleaning. It is by far the most troublesome too — that is, with the old style methods of doing this work. Only during the last few years has this subject been given the attention it deserves.

Mechanical cleaning is to the broom and duster what electricity is to the candle. It is being universally adopted. Let us tell you why you should install a plant in your home or building.

THE 20th CENTURY METHOD

Dust causes more deterioration and wear than any other one thing we have to contend with. It is also the most prolific disease breeder known. *Mechanical Cleaning* will extract every particle of grit and dust from carpets, rugs, upholstered furniture, draperies, bedding, or in fact, anything in or on which it may accumulate.

The main cause of floor coverings wearing out quickly is the sharp grit that becomes matted under the nap and cuts the fibres. Air is the only cleaning agency that will remove this grit.

It is almost impossible to keep a building in a sanitary condition by any other means. The carpets serve as a receptacle for filth and germs that are carried into the house on people's shoes and often serve as an ideal place for multiplication.

SHOWING RESIDENTIAL PLANT IN OPERATION

Our plants do their work thoroughly, quickly and without bother or noise. The quality of the apparatus is of the highest and our prices are very reasonable. We make various equipments for buildings of different sorts and ask you to allow us to make an estimate covering your particular needs. When writing please state power available. If electricity, voltage, direct or alternating current and phase.

Cushioned Non-Return Valve.

Protect your boilers with an absolute safety stop.

They will automatically cut off a boiler in case of accident to the boiler, such as the bursting of a tube, and will also act as a **SAFETY** stop to prevent steam being turned into a cold boiler, which also means a safeguard for men working inside.

Is an **Automatic Stop Valve**, a **Hand Stop Valve**, all in one.

The Heaviest Line of Automatic Valves for Steam and Water Service Ever Presented to Users.

GOLDEN-ANDERSON VALVE SPECIALTY CO.

Offices: 1011 Fulton Bldg., Pittsburg, Pa.

No floats! no valves! inside of trap. All working parts outside. Simple, positive. We know these traps "have no equal."

VERSATILE WORKERS

IN PIPAGE EQUIPMENT

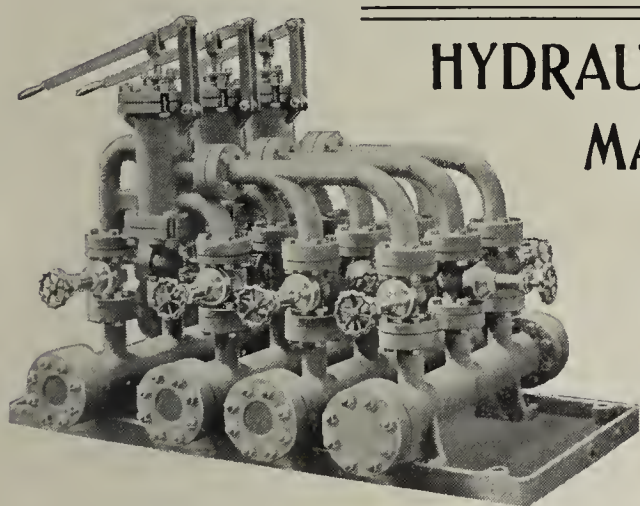

We are versatile, because we can turn to anything which good valve makers are expected to know.

From making the simplest valve to installing the most intricate equipment, perfection is our one absolute aim.

In pipe fitting our machinists know perfectly the "ins" and "outs," and in making estimates we are always prompt as well as reliable.

If you are having any trouble with your valves, or if your pipage equipment is not what you think it ought to be, we are sure we can help you.

Our catalogue, giving much valuable valve knowledge, will prove one of your best companions.

ARE YOU A POWER PLANT MAN?

You use valves? You must know that Regrinding Valves are the only ones suitable for high pressure and temperatures and severe service?

Now, the one thing you may not know is that the Williams Valve is the one you need

You need it because it is the best regrinding valve made—because it has greater lift of disc, larger wearing surfaces, and is stronger in construction—because it is reground without removing from steam line or breaking a pipe connection.

It's the valve for your plant—look it up.

Our Catalog is Ready for You.

SYMONS DUMP WAGON

WAGON DISCHARGING LOAD

Bottom Sections do not swing toward the wheels. Will dump when wheels are mired or on a load previously dumped without stalling. One foot shorter coupled than any other wagon. No chains inside the bed. Wagon-box sand tight. Easy foot-trip; no springs except those under the seat. Material the best; prices right. :: :: :: :: ::

TROY BOTTOM-DUMP WAGONS

make money for their owners by saving it. They save time; they save repair bills and are good for more than one year's use; they save the load—can't lose any of it until driver releases the dumping device, then entire contents drop immediately beneath the wagon.

The doors are made of reinforced sheet steel, one overlapping the other at center — always a tight bottom, never swelled or sprung by wet weather or wet loads.

Only two chains to lift the doors, and they are outside of box, one at either end, and operated by one lever only.

Lightest running because made on correct wagon-making and mechanical lines.

The Simplest, Strongest, Serviceable dump wagon. Made in several sizes. Would do your work with more satisfaction than any other wagon. Send for Catalog.

"TRIMO" PIPE TOOLS

AWARDED GOLD MEDAL, ST. LOUIS, 1904

"TRIMO" PIPE WRENCH.

Known everywhere as the **best pipe wrench made**. Being drop forged from steel, it is strong, durable and always reliable.

Combination 1 and 3 Wheel.

Frame is made of drop forged steel, insuring strength.

PIPE
CUTTER

The *only* cutter that will remove *Burr* from *Pipe* while it is being cut.

This Chain Wrench is designed throughout to give the **greatest strength** for **weight of material** used, thus insuring the safety of the workman. Chain is fastened to **handle** instead of the Jaws, therefore the **drawing stress** is on the **handle** where it should be.

"TRIMO" CHAIN WRENCH

All parts of above tools are interchangeable and guaranteed. Sold by Jobbers everywhere.

WE PAY CASH

WE HAVE DEVISED A PLAN TO PAY YOU CASH FOR GIVING CREDIT TO HENDRICKS' COMMERCIAL REGISTER, WHEN ASKING QUOTATIONS FROM FIRMS WHOSE NAMES ARE CLASSIFIED THEREIN.

WE BELIEVE THAT HENDRICKS' COMMERCIAL REGISTER IS USED BY MORE BUYERS FOR PURCHASING PURPOSES THAN ANY OTHER PUBLICATION EVER ISSUED.

BUT OUR PROBLEM IS: HOW CAN WE PROVE IT?

WE HAVE DECIDED TO PAY FOR THE EVIDENCE.

WHEN WRITING A FIRM WHO IS LISTED IN HENDRICKS' COMMERCIAL REGISTER, ATTACH THE RED COUPON TO YOUR LETTER, FILL OUT THE WHITE ONE AND MAIL IT TO US, AND WE WILL REMIT FIVE CENTS IN CASH FOR EACH COUPON SO USED.

WHEN YOU ARE OUT OF COUPONS WE WILL FURNISH MORE.

SOW WITH US AND REAP BOUNTIFULLY

We are manufacturers, and you can't miss getting what you want, at the price you want to pay, and the use you want it for, if you address

L. F. GRAMMES & SONS, Allentown, Pa.

THIS IS OUR BUSINESS

MACHINES TO BUILD BOXES—all kinds and sizes. This includes AUTOMATIC NAILING MACHINES that drive as many nails as required. SAW MACHINERY, TRIMMING MACHINES and PRINTING PRESSES.

MACHINES TO NAIL BRUSHES—the famous Perkins and Grammes—machines that nail wooden backs, handles and heads in brass and metal bound brushes.

SMALL METAL GOODS—stamped or cast, all ordinary and special that can't be had anywhere else—hardware for office furniture, boxes and novelties.

SUPPLIES for Cigar Box and Paper Box Manufacturers, Printers and Lithographers.

We issue fine catalogs of each line. After we know what you are interested in, we can send you a catalog which you will value highly.

L. F. GRAMMES & SONS, - ALLENTOWN, PA.

3 BIG THINKS

THINK ONE

ONE irresistible, indisputable reason why the PACIFIC BUILDER AND ENGINEER is such a strong "Puller" for business is because it is the Only representative of the largest Industry in the portion of the United States that is making the most rapid development.

180 MILLION DOLLARS was expended during 1906 in construction, improvement and development work in the territory covered by the PACIFIC BUILDER AND ENGINEER.

That means 250 MILLIONS in 1907.

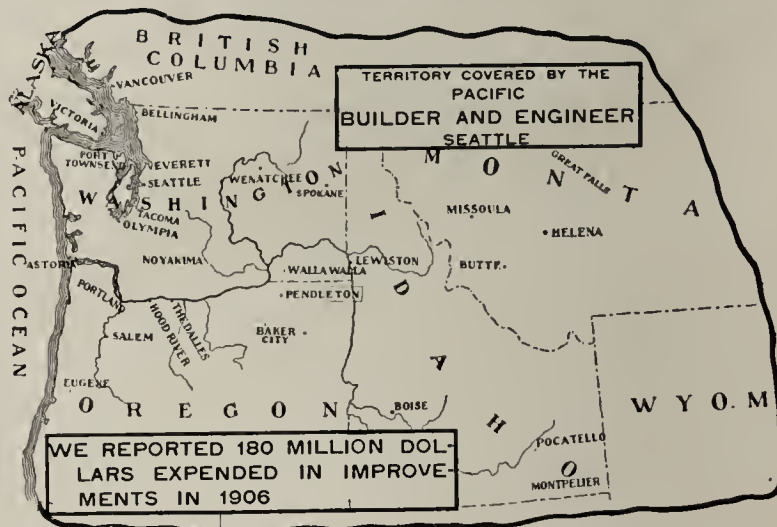

Or practically a GAIN of 50 %.

THINK TWO

The SECOND Reason Why the PACIFIC BUILDER AND ENGINEER will pay you is because it gives its Readers the very essence of Business—Getting Information—Advance Information of all construction, improvement and development work, long before contracts are ready to let.

THINK THREE

The THIRD Reason Why the PACIFIC BUILDER AND ENGINEER gives such good value to its Advertisers and Subscribers is because it covers its immense field thoroughly, employing a large corps of editors and special correspondents, and a special news service, unequalled anywhere.
